

Sprint 0 Reflection

What we think went well:

- Our meetings with the client
- Client-group relationship
- The depth of our planning
- Completing our goals for sprint 0

What we think didn't go well:

- Took much longer than expected due to Easter Break
- Lack of commitment from multiple team members
- Distraction and procrastination, especially caused by other assignments

What we will do moving forward:

- Organised our group meetings more effectively
- Get all team members to attend group meetings and actively contribute to the project.
- Time management skills needs to be reviewed
- Continue upskilling in preparation for development
- Continue to keep our client updated with developments
