Meeting 1 - Initial planning/pitch

Date: January 26th
Time: Midday

Attendees:
- Stephen Thorpe (Paper leader)
- Karen Phipps (Industry Advisor)
- Salley Vallely (Parking & Transport Operation Coordinator)
- Sonia Simpson (Associate Director Facilities Support - Client)
- Dominic Porter (Project Member)
- Hayden Woodhead (Project Member)
- Izaac Crooke (Project Member)
- Dharyin Colbert (Outside observer)

Discussion:
- Introduction to our client, Sonia, who is representing AUT Transport
- Troubles with AT and AUT Transport
- Where's my bus app with Transit and AUT ICT, a failed app
- Sonia voiced that she is very happy and willing for us to create an app
- Hayden gives a rough product pitch to the AUT Transport team
- Sonia brings up point about how some students, mainly South Campus students don't have a smart device so an alternative will be required
- Stephen explain our timeline with the different phases and what is expected of us
- Stephen talks about politics and how it could be difficult
- Hayden brings up point about we would like to integrate payment but also how it will be hard with AUT ICT
- Sonia discusses the handover with AUT ICT
- Stephen tells us about how general IP agreements with students and their client
- Hayden explains that we want to have it open-source and white label it for AUT
- Dominic explains and shows the metrics and data which could be collected and shown with a new system/app
- Izaac brings to the table that with a paper ticket system there is fraud happening
