Subject: Ticketing Project Status Update

Hello,

Just a quick update on the status of the project. We've been working hard on writing up a set of requirements for the ticketing system and creating a proposal as part of the academic side. We have sent a draft of this proposal off to our supervisor and are currently awaiting feedback. We present this proposal to the academic team on Thursday and will receive further feedback and a decision on whether or not we can move forward with the project. We will let you know the outcome of this meeting and if given the go-ahead we will send you through the proposal for your feedback.

Thanks
Hayden
