Sprint 2 Review

Duration of Sprint Planned: 7th May - 29th May
Duration of Sprint Actual: 7th May - 28 July

Group Members:
- Izaac Crooke - (Project Member)
- Hayden Woodhead - (Project Leader)
- Dominic Porter - (Project Member)

Our sprint 2 did not go as planned. We have made a start on several core functional parts including driver auth, notification token registration and qr code data signing and verification. However, our time blew out. Between several holidays and uni break we didn't complete this sprint on time. Coupled with greater than expected difficulty and some team members still being behind we definitely didn't complete as much as we wanted.
